Canon

Visitor Information

Canon

As a leader in the imaging world, Canon have a comprehensive range of products (both hardware and software) from input to output specifically designed with the working professional in mind.

With image quality, reliability and usability as a driving force behind Canon's professional products, Canon's ability to provide solutions that meet and exceed expectations is aided by the synergy created across the product range.

Upon visiting the show, you will be able to see and try for yourself products that makes up Canon's input to output solution and how diverse the range is. Selected products from the EOS range (latest DSLR's and lenses), from video, broadcast lenses, PowerShot, scanner, PIXMA printers, imagePROGRAF (large format) printers, imagePRESS printer, SELPHY compact printers, XEED projectors and software will be available.

Canon experts will be able to answer all your product questions and provide advice, and if you are not already a CPS (Canon Professional Services) member, our pro team will be able to explain the benefits of CPS membership and how to join. For those that would like an expert eye to offer some constructive advice on your work, there will even be a portfolio review service from a top photographer, but please come and book early as this is sure to be popular.
